TARIFF HOLDS UP MILLIONS IN GOODS

Government Warehouses Being Taxed Awaiting New Measure to Become Law.

More than \$150,000,000 worth of merchandise, goods of every character upon which the import duty is to be wered by the new tariff law, is stored in bonded warehouses at the various ports. All of this merchandise is being held in bond by the Government, and will not be entered until the new law is effective.

Thousands of merchants and business men having shipments arriving ate taking advantage of the bonding privilege to derive full benefits from lowered duties, and are holding back their goods. This method is in strange contrast to that used a few years ago, when the Payne-Aidrich law was pending. Then the importers of the country had great ocean greyhounds rushing to port with full cargoes, in a mad race to enter before the moment nad race to enter before the moment ille new law became effective. Though detailed figures are not available, and Assistant Secretary of the Treasury Hamlin can only estimate the total of merchandise held in bond, from the changing daily reports from various ports, the total is rapidly mounting.

Customs Warehouses Taxed. Every custom warehouse where goods may be placed in bond, is being taxed to its capacity, and goods for interior ints in bond are being hustled along to be held at these interior cities.
Liquidation of merchandise entries at
the various ports are unusually light
because of the disposition to bond or because of the disposition to bond of hold them back for a time, importer; putting shipments in bond have the advantage of withdrawing a small part

when the new tariff law becomes effective, it is possible that merchandise held in bond will mount to the \$500,000,000 mark in value. There is little fear, however, that any of the big ports of entry will become clogged. The bulk of goods now held is in New York, where the facilities are extensive. But even the border ports are holding bonded goods for importers waiting for the new tariff.

Orders To Collectors.

Orders To Collectors. rate preparations have been the Treasury Department for utting the new law into effect with othness and dispatch. Instructions have been sent to all collectors to make entries in the usual way without concern for events in Washington until they are notified by telegraph from the department when the new law is effective, which will be the moment President Wilson's signature is attached, and arrangements have been made to give the Treasury advance notice of the exact moment of signing. This, it is believed, will save confusion and dispute, and the many troubles that charite, and the many troubles that char sterized tariff changes years ago.
